

Minimatic

The smallest with
automatic feeder

zumoval

Features

Our juicers are totally automatic:

There is no need to cut the oranges in half. Just place the oranges in the feeder basket and the machine will do everything for you at a high speed.

Our exclusive and unique rotating system is very attractive and visible, which attracts the attention of consumers, hence increases juice demand.

While squeezing, the juice is not in contact with the peel, avoiding the contact of the bitter taste with the juice.

Equipped with a 0.75 Hp motor and gears of steel, the Minimatic model is certainly within the range of small equipment, the strongest and most robust machine on the market.

The machine is totally maintenance free.

Easy to dismantle, which takes only one minute, cleaning is really easy and will take less than 3 minutes.

6kg
capacity basket

Stainless steel
knife, perfect
cut

Without
touching the
peel

Our
exclusive
rotative
squeezing
system

Highly
resistant front
cover screen

Options

STAND

Mini stand.

ORANGE COUNTER

Counts the amount of oranges that have been juiced by the machine, allowing the customer to monitor consumption.

AUTOMATIC SHOWER

This option provides a flushing system that cleans quickly the juicing area, saving time and labour cost and keeping the juicer clean and hygienic at all times.

SELF SERVICE TAP

The easy-to-use automatic tap is connected directly to the motor of the machine. Open the tap and the machine starts running. Close the tap and the machine stops. Perfect solution for buffet services. Anti-dripping system.
